

Tallinn University of Technology (TalTech) had a very successful international [Next Generation Digital Government Microdegree](#) program running for two years now. We are happy to announce another program is open for registration for 2025/2026 semester.

This microdegree program will provide thorough overview of e-governance and digital state. The program is supported by **ESTDEV - Estonian Center for International Development Cooperation which provides 15 scholarships to Armenian, Georgian, Moldovan students.**

Program takes place from September 2025 until February 2026. Most of the program is independent online learning, supplemented by sessions with lecturers and experts. The course ends with an intensive winter school program in Estonia, during which the participants get to know Estonian digital infrastructure and best practices on site.

In order to pass the program, students will need to go through the e-learning materials, complete their homework, and present a project based on a specific digital solution. The presentations are evaluated and given feedback by digital state experts from Estonia.

Detailed information can be found [here](#).

Scholarship provides:

- Participation fee in the Next Generation Digital Government Microdegree online program;
- Access to Moodle with all necessary course materials, videos, interactive tasks etc.
- 3 online sessions with lecturers and experts.

Participation in the intense **Winter School** program, including:

- Travel to and from Tallinn, Estonia (max 400 euros);
- Accommodation in shared twin-room in student hostel;
- Breakfast in the university canteen (max 5 euros/day);
- Lunch in the university canteen (max 10 euros/day);
- Tallinn unlimited public transportation card.

To apply for the scholarship:

1. Register [HERE](#);
2. Send one-page motivation letter and CV to summerschools@taltech.ee

Application deadline is **25th of August 2025 at 10 AM.**
